Print spec v5: Zenith stall, KRMU Ideas 4.0

Print v5, counter map v4 · 8 counter sets, 3 fallback tents, Live Projects side wall · built 2026-10-24 by the print task (TASK-08) · print deadline 26 Oct 2026, 12:00 IST

Recommend: print the new standees for 2 and 4 now, plus the A4 fallback tents (cheap), so the order is not blocked on the 26 Oct 12:00 go/no-go.

Purpose. This document tells the printer exactly what to print, at what size and on what material, and lets Avi approve the copy and quantities before the order goes out. All 29 print PDFs are vector, true to size, with 3 mm bleed, crop marks and TrimBox/BleedBox set; the Live Projects loop slide is a 1920 x 1080 PNG (plus PDF) for a spare TV. QR check: **30/30 files pass**, 71 QR codes decoded back to the exact URL by two decoders.

What is needed from Avi

□ Approve the recommendation above, then send the order by 26 Oct, 12:00 with one standee proof first.

□ Approve the copy per counter (table "Copy and QR"), counter map v4: 1 AI Jyotish, 2 AI Startup Studio (new), 3 AI Sharks, 4 Build Your Own AI Agent (new), 5 Career Studio, 6 Squad Reel Studio, 7 AI ya Asli?, 8 AI Jyotish.

□ Every counter standee and tent also carries the follow QR (instagram.com/zenith_school_of_ai) and the photo-frame cue "Photo frame: selfie lo, @zenith_school_of_ai tag karo". Photo printouts are dropped.

□ Live Projects is a side-wall set (A2 + A3 posters, follow QR, no company or brand names until approvals) plus a 16:9 loop slide if a spare TV exists.

□ Confirm quantities (suggested below) and pick the printer and material.

□ Logo: the files use the official PNG from Website/Pics (4686 px wide, sharp at roll-up size). If a vector logo exists, send it and the files are rebuilt in one command.

Which file to use (go/no-go, 26 Oct 12:00)

Counters 2 and 4 carry new experiences that go live only if they pass their checks at 26 Oct, 12:00, the same time as the printer deadline. Print their sets now (recommended) together with the cheap fallback tents. At go/no-go the team only decides what to set up at the counter:

Counter	Outcome	Files

02	**GO**: AI Startup Studio runs.
	Set up its standee, tents and poster (already printed).
		`standee_c02_startup_850x2000mm.pdf`
		`tent_c02_startup_A4.pdf`
		`poster_c02_startup_A3.pdf`

	NO-GO: put the AI Startup Studio standee, tents and poster away. Put 2 fallback tents on the table, either:	**AI Experience** (QR https://play.zenithschool.ai/)
		`tent_cXX_FALLBACK-ai-experience-for-c02-or-c04_A4.pdf`
		or
		AI Jyotish (QR https://play.zenithschool.ai/jyotish?c=2)
		`tent_c02_FALLBACK-jyotish_A4.pdf`

04	**GO**: Build Your Own AI Agent runs.
	Set up its standee, tents and poster (already printed).
		`standee_c04_agent_850x2000mm.pdf`
		`tent_c04_agent_A4.pdf`
		`poster_c04_agent_A3.pdf`

	NO-GO: put the Build Your Own AI Agent standee, tents and poster away. Put 2 fallback tents on the table, either:	**AI Experience** (QR https://play.zenithschool.ai/)
		`tent_cXX_FALLBACK-ai-experience-for-c02-or-c04_A4.pdf`
		or
		Career Studio (QR https://play.zenithschool.ai/career?c=4)
		`tent_c04_FALLBACK-career_A4.pdf`

The generic "AI Experience" tent (QR to the hub https://play.zenithschool.ai/) works at counter 2 or 4. Files whose name contains **FALLBACK** are set out only on a no-go.

AI Experience (Counter 2 / 4)

AI Jyotish (counter 02)

Career Studio (counter 04)

Sizes, bleed, material

Item	Finished (trim)	Bleed	PDF page incl. marks	Material (suggested)
Roll-up standee	850 x 2000 mm	3 mm all sides	880 x 2030 mm	Roll-up film or blockout PVC-free media, 200 to 250 micron, matte; standard 85 x 200 cm roll-up stand
A4 table tent (fold in half)	210 x 297 mm	3 mm all sides	234 x 321 mm	300 to 350 gsm matte card, scored at the fold
A3 poster	297 x 420 mm	3 mm all sides	321 x 444 mm	170 to 250 gsm matte paper, or mounted on 5 mm foam board
A2 poster	420 x 594 mm	3 mm all sides	444 x 618 mm	170 to 250 gsm matte paper, or mounted on 5 mm foam board

Quantities (suggested)

Group	Designs	Quantity
Counter sets (8 counters)	AI Jyotish, AI Startup Studio, AI Sharks, Build Your Own AI Agent, Career Studio, Squad Reel Studio, AI ya Asli?, AI Jyotish	8 x Roll-up standee (1 each) 16 x A4 table tent (fold in half) (2 each) 8 x A3 poster (1 each)
Fallback tents (3 designs)	AI Experience (Counter 2 / 4), AI Jyotish (counter 02), Career Studio (counter 04)	6 x A4 table tent (fold in half) (2 each)
Live Projects side wall	Live Projects	2 x A2 poster (2 each) 2 x A3 poster (2 each)
Total		**8 x Roll-up standee** **22 x A4 table tent (fold in half)** **10 x A3 poster** **2 x A2 poster**

Sizes from the TASK-08 brief and the lead's v5 brief. Quantities are a suggestion (inference): one standee and one poster per counter, two tents per counter and per fallback design (one per table side), two A2 and two A3 for the side wall. Change in spec.mjs (QTY) if needed.

Production notes

- **Do not scale, crop or recolour the QR codes.** They are vector, dark on white, error correction H. The smallest standee main QR code area is 287.8 mm wide, excluding the white quiet zone (brief asks for at least 120 mm). The smaller follow QR on standees and tents is meant for close range (about 1 m and 25 cm).
- **Roll-up standee, cassette:** roll-up cassettes hide up to 200 mm at the bottom. Nothing is printed in the bottom 220 mm of the trim except background (the lowest text sits 225.5 mm above the bottom trim edge, measured on every file). The top 50 mm is clear for the clamp rail. If the stand needs more than 2000 mm of media, extend the bottom background; never scale or squash the art.
- **Finish:** matte everywhere. Gloss glares under stall lights, on camera and in phone scanners.
- **A4 table tent:** print single-sided, score and fold on the FOLD marks (the middle). The top half is upside down on purpose, so both sides read upright when folded.
- **A2 posters** are the A3 artwork scaled up as vector (no quality loss).
- **PDF boxes:** TrimBox = finished size, BleedBox = trim + 3 mm. Crop marks and the file label sit outside the bleed.

Colour (RGB to CMYK)

The PDFs are RGB (sRGB), exported from the HTML sources. Please convert in your RIP to your press or flex profile with relative colorimetric intent and black point compensation, and print one proof. The stage background is a deep navy (#0B0A22 to #211552), not black: keep it as a rich navy, do not flatten it to 100% K.

Brand colour	RGB hex	Approx. CMYK (estimate, naive conversion)	Note
Zenith ink	#19173D	C59 M62 Y0 K76	text on light, base of the stage background
Gradient start (sky)	#62BBF3	C60 M23 Y0 K5	accents, rings, network lines
Gradient end (violet)	#4E308D	C45 M66 Y0 K45	most likely to shift; check on the proof
Label yellow	#FFE27A	C0 M11 Y52 K0	"For fun only" chips, photo-frame cue
QR modules	#0B0A22 on white	C68 M71 Y0 K87	keep maximum contrast

The CMYK values are an estimate from a plain formula, not an ICC conversion. The printer's proof is the reference.

Copy and QR per design (for Avi's approval)

#	Design	Hook (Hinglish)	Labels	QR opens
01	**AI Jyotish**	Haath dikhao. AI batayega tum kaun ho. Tum kaun ho, kya ho chuka hai, aur kya hone wala hai.	For fun only Sirf maze ke liye. AI demo.	`https://play.zenithschool.ai/jyotish?c=1` `+ follow QR`
02	**AI Startup Studio** NEW	Apna startup, 90 second mein. Problem chuno. AI agents banayenge naam, logo, pitch aur ek live startup page.	none	`https://play.zenithschool.ai/startup?c=2` `+ follow QR`
03	**AI Sharks**	Apna idea pitch karo. Deal milegi ya "Main out hoon"? 3 AI sharks, 1 minute ka pitch. Har shark ka apna style.	For fun only AI sharks. Asli paisa nahi.	`https://play.zenithschool.ai/shark?c=3` `+ follow QR`
04	**Build Your Own AI Agent** NEW	Apna AI agent banao. Job chuno, personality set karo, tools do. Phir dekho woh live ek real task karta hai.	none	`https://play.zenithschool.ai/agent?c=4` `+ follow QR`
05	**Career Studio**	Tumhara dream job 2030 mein kaisa dikhega? Career Forecast dekho, phir Job Time Machine khelo: 2026 vs 2030.	For fun only	`https://play.zenithschool.ai/career?c=5` `+ follow QR`

06	**Squad Reel Studio**	Doston ke saath aao. AI agents tumhari reel banayenge. 2 se 5 dost, 3 chhote shots, ek 9:16 reel.	none	`https://play.zenithschool.ai/reel?c=6` `+ follow QR`
07	**AI ya Asli?**	Pehchano: AI ne banaya ya asli hai? 10 rounds, 60 second, live leaderboard.	none	`https://play.zenithschool.ai/asli?c=7` `+ follow QR`
08	**AI Jyotish**	Haath dikhao. AI batayega tum kaun ho. Tum kaun ho, kya ho chuka hai, aur kya hone wala hai.	For fun only Sirf maze ke liye. AI demo.	`https://play.zenithschool.ai/jyotish?c=8` `+ follow QR`
02	**AI Experience** **FALLBACK**	Scan karo aur apna AI experience chuno.	none	`https://play.zenithschool.ai/` `+ follow QR`
02	**AI Jyotish** **FALLBACK**	Haath dikhao. AI batayega tum kaun ho. Tum kaun ho, kya ho chuka hai, aur kya hone wala hai.	For fun only Sirf maze ke liye. AI demo.	`https://play.zenithschool.ai/jyotish?c=2` `+ follow QR`
04	**Career Studio** **FALLBACK**	Tumhara dream job 2030 mein kaisa dikhega? Career Forecast dekho, phir Job Time Machine khelo: 2026 vs 2030.	For fun only	`https://play.zenithschool.ai/career?c=4` `+ follow QR`
wall	**Live Projects WALL**	Work in industry starting 1st year. 4 mandatory real-world live projects with 30+ companies. Sawaal ho to kisi bhi counter pe poocho.	none	`https://instagram.com/zenith_school_of_ai`

Every file also carries the steps, @zenith_school_of_ai, "B.Tech in AI + mini-MBA. Ek degree, KRMU ki.", zenithschool.ai and the small line "Zenith first-years x AI agents" (public hero line set in counters.mjs). The Live Projects wall hook and body use only website wording ("Work in industry starting 1st year"; "4 mandatory real-world live projects with 30+ companies"). No em-dashes in any file (checked on the extracted PDF text).

File list and QR verification

Decoded from the PDF raster (poppler pdftoppm). "jsQR / ZXing": two independent decoders on a sharp raster (7 px per module). "Phone sim": decodes out of attempts (2 decoders x distances) at the resolution a phone camera preview (about 1920 px wide, 70 degree view) sees from each distance; required at the nominal distance (standee 2 m, A2 1.4 m, A3 1 m, tent 0.6 m; follow QR: standee 1 m, tent 25 cm). Tents carry each QR on both faces.
